

EDUCATION

Sri Eshwar College of Engineering	B.Tech.(IT)	CGPA 8.227 (upto 3rd Semester)	2022 - 2026
A.R.LM A.R.L.M	HSC	93.17%	2020 - 2022
	SSLC	75.17%	2019 - 2020

INTERNSHIP

FullStack Intern-Critter Graphix	2024
As a Fullstack Development Intern at Critter Graphix, I developed web applications using HTML, CSS, JavaScript, React, MongoDB, and Express.js. Built responsive user interfaces and implemented RESTful APIs for efficient data management, resulting in 30% faster load times and enhanced user experience across platforms	
FullStack Intern-Better Tomorrow	2024
Engineered a full-stack E-Book Ecommerce platform using MERN stack, implementing user authentication, search functionality, and payment integration. Developed responsive interfaces and RESTful APIs to streamline book discovery and purchasing processes.	

PROJECTS

Connect (Real-Time Chat Application)	2024
Engineered a real-time chat platform enabling private messaging and user connections using Socket.IO for instant communication. Implemented secure user authentication with JWT for protected routes, integrated real-time message delivery with read status tracking, and developed responsive UI for seamless cross-platform messaging experience.	
Tech Stack: HTML, CSS, JS, ReactJS, Express JS, Node JS, MongoDB, Chakra UI, JWT, Bcrypt, Socket IO	2024
Hear Together (a collaborative music platform)	
it is facilitating real-time artist interaction and music sharing. Implemented user authentication, interactive features for community engagement, and seamless file sharing capabilities for musical collaboration. Designed intuitive interface for music enthusiasts to connect, share, and create together in real-time.	
Tech Stack: HTML, CSS, Javascript, ReactJS, Express JS, Node JS, MongoDB, Bcrypt, SocketIO	2024
ResX	
College Resource Management System Built a comprehensive resource booking system with conflict management algorithm and automated notifications. Integrated Power BI dashboard for real-time analytics, resource utilization tracking, and streamlined booking management. Implemented user role-based access control and dynamic scheduling system for efficient resource allocation across departments.	
Tech Stack: HTML, CSS, Javascript, ReactJS, Express JS, Node JS, MongoDB, JWT, Data Science (Power BI)	2024
MedX	
Healthcare Platform Implemented digital prescription management system with automated appointment scheduling and email notifications. Developed secure patient data management system with medical history tracking and integrated prescription lifecycle management. Created dashboard for doctors to manage patient records, prescriptions, and appointment schedules efficiently.	
Tech Stack: HTML, CSS, Javascript, ReactJS, Express JS, Node JS, MongoDB, JWT, Bcrypt, Mongoose	

CERTIFICATIONS

Certified in Data Structures using C,C++ to upskill my programming and logic building ability	Udemy	2024
Certified in Docker and kubernetes to level up myself in deployment and Maintenance	Udemy	2024
Certified in MERN Stack Development to upskill and find a path in Web application Development	Better Tomorrow	2024

ACHIEVEMENTS

Bit's and Bound REC:	Advanced 3 rounds in a national hackathon (300+ participants); built web app in 24 hours.	2024
Grand Tech Carnival:	My Project MedX Won First Prize in the Project Expo Conducted by Sathyabama University	2024
Internal SIH:	Selected as one of the team to participate in SIH(selection Round) through the Internal selection	2023
Skillathon:	Ranked 6th out of 20 finalists from 60 competing teams in a State-level hackathon.	2023
LeetCode:	Rank (3,82,007) Solved(250+) Ratings(1541) Profile	
CodeChef:	Contest(11) Solved(193) Rating(11088) Profile	
Hacker Rank:	Java 3 star Python 5 star C 4 star Profile	

SKILLS

Languages:	Java C Python HTML CSS Javascript
Core:	Data Structures and Algorithm Oops(java)
Database:	Mysql,MongoDB
Framework:	NodeJS ReactJS ExpressJS
Tools:	GitHub, GIT, VS Code, IntelliJ IDEA,pycharm, Postman,TunderClient,PoweBI,Docker,Canva
